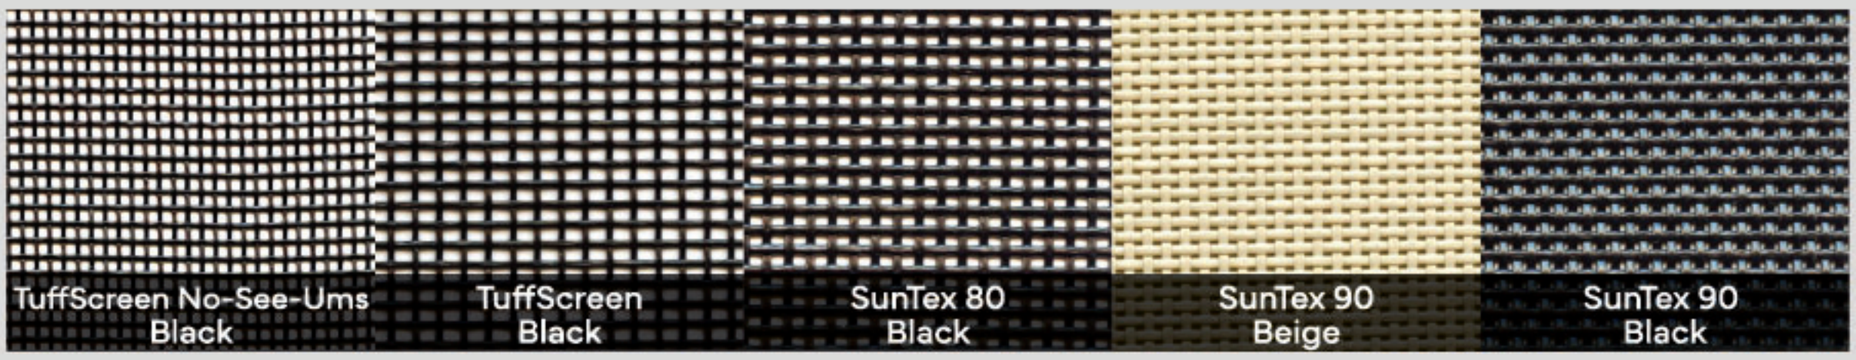
BRING THE OUTSIDE IN

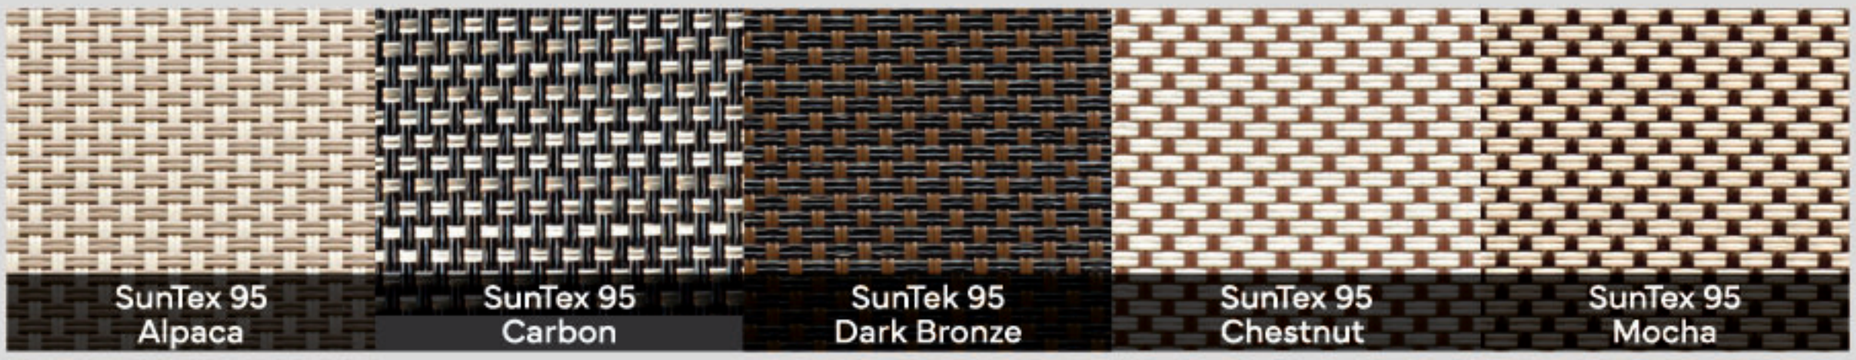
RETRACTABLE SCREEN SYSTEM

The Sunspace Retractable Screen System is designed to transform outdoor spaces by adding protection, comfort, and versatility to patios, decks, and porches. These high-quality screens provide a barrier against UV rays, rain, and wind, enhancing the usability of any outdoor area. By reflecting up to 90% of solar radiation, they help keep temperatures cooler, reduce glare, and provide daytime privacy while preserving your view. Built with durable aluminum and stainless steel components, the system ensures long-lasting performance and seamless integration with any design, with five custom aluminum color options to complement your space.

Choose from a variety of high-performance fabrics tailored to different needs—TuffScreen for durability and pet resistance, SunTex for glare and heat reduction, and Sheerweave for privacy while maintaining natural light. The Sunspace Retractable Screen System offers the perfect blend of style, convenience, and functionality, maximizing your outdoor living experience.

AVAILABLE SCREEN OPTIONS





BUILT FOR CONVENIENCE

Built to accommodate a variety of spaces, with sizes ranging from a minimum width of 24 inches to a maximum of 276 inches wide by 168 inches tall. This flexibility ensures they can be tailored to different applications, from residential patios to large commercial openings. Powered by high-performance Somfy motors, these screens deliver smooth and reliable operation, with options for standard or intelligent obstacle detection to enhance durability and ease of use.

For effortless control, Sunspace Retractable Screens can be operated via handheld remotes, wall-mounted switches, or smartphone integration. They are also compatible with leading smart home systems and voice assistants like Amazon Alexa and Google Home, allowing users to automate and customize their experience. Whether for increased energy efficiency, enhanced outdoor comfort, or improved privacy, these motorized screens offer a seamless, user-friendly solution for any space.

RETRACTABLE SCREENING TYPES

FABRIC NAME	UV BLOCK	PRIVACY	DURABILITY	WIND CONTROL	PET RESISTANCE
TuffScreen	Medium	Low	High	Medium	High
SunTex 90/95	High	Medium	High	High	High
Sheerweave	High	High	High	Medium	Medium
Soltis 502	High	Medium	Very High	Very High	Low

Sunspace Retractable Screens offer a variety of screen options tailored to different needs. From blocking harmful UV rays and reducing glare to providing privacy or keeping insects out, these screens enhance comfort and functionality in outdoor spaces. With options designed for durability, weather resistance, and style, there's a screen to suit every preference and environment.
